==> VIVOTEK Successfully Acquires ISO14001 Certification

VIVOTEK is proud to announce the success through ISO 14001, certified by TUV Rheinland Industrie Service GmbH. As a company whose main drive is to improve the safety and security of our customer's world, we realize the importance of protecting the environment around us. The ISO 14001 once again serves to prove our dedication to continually improving our operations and methods. The certification process exists to testify about an organization's efforts to: (a) minimize how their operations negatively affect the environment, (b) comply with applicable laws, regulations, and other environmentally oriented requirements, and (c) continually improve to keep our environment healthy. To us the ISO 14001 is merely another step in redefining the surveillance industry.

==> Successful Tradeshow of Computex 2006, Taipei

June 2006 marked VIVOTEK's 7th showing in the internationally recognized Computex Tradeshow, and what a success it turned out to be. With over 200 companies looking to get involved and countless independent parties showing interest, our drive to redefine the Surveillance Industry is paying off.

We would like to thank all the people who shared their time with us during our exhibition and if you couldn't make it to Taipei for the Tradeshow come visit us at www.vivotek.com.

==> VIVOTEK's 3G-compatible Pan/Tilt network cameras V PT7135/PT7137

The VIVOTEK PT7135/PT7137 is a 3GPP/ISMA-compatible pan/tilt network camera, offering superior image quality and optimized bandwidth efficiency by MPEG-4 implementation. Users can easily access it and receive synchronized video and audio by computers, cell phones, or media adapters with TV, anytime, anywhere for indoor surveillance and remote monitoring.

Features:

- Live Video and Audio Monitor via 2.5G/3G Mobile Phone or Media Adapter
- Motorized Wide-range Pan/Tilt
- MPEG-4 Video Compression (Simple Profile)
- Up to 30 Frames Per Second in Full VGA Resolution
- Easy to Install and Configure
- Optimized Synchronization of Audio and Video
- 802.11g Wireless Connection (PT7137)
- Supports 3GPP/ISMA RTSP (Real Time Streaming Protocol)
- Intelligent Motion Detection, with Pre- and Post- Alarm Snapshots
- Superior Low Light Performance
- Free-bundled 16-CH Audio and Video Recording Software

==> VIVOTEK's Vandal-proof Dual-codec Network Speed Dome Camera V SD6112V/SD6122V

The VIVOTEK SD6112V/SD6122V, which is equipped with a durable polycarbonate-viewing cover against possible vandalism, provides MPEG-4 or MJPEG compression method to distribute optimized image quality and efficient bandwidth over IP network or the Internet. SD6112V/SD6122V comes with a 10X optical zoom lens that you can easily zoom in on the critical areas for remote monitoring. Furthermore, the precise wide pan/tilt movement offers continuous 720-degree pan and 180-degree operation and supports 20 preset locations allowing you to quickly locate the position. It also features a great many of powerful surveillance functions such as the intelligent motion detection, two-way audio, digital I/O for various indoor or outdoor surveillance applications, pre/post alarm snapshots.

Features:

- MJPEG and MPEG-4 Video Compression Selectable
- Pan Travel: 720; Tilt Travel: 180 (10X Optical Zoom, Plus 10X digital Zoom)
- Pan Speed: 5 ~ 300/Sec.; Zoom Speed: 3.9 Sec. (1X to 10X)
- Integrated Two-way Audio (Full-Duplex)
- Vandal-proof
- Optimized Synchronization of Audio and Video
- UPnP and DDNS Support
- Intelligent Motion Detection
- Pre- and Post-Alarm Snapshots
- Extended I/O for Sensor and Alarm
- Free-bundled 16-Channel Recording Software
