➤ **Company News**

**VIVOTEK's first Mega-pixel Network Camera
IP7138/7139**

With dignified silvery-black color and a streamlined design, the VIVOTEK IP7138/7139 is a professional network camera with mega-pixel resolution for indoor surveillance applications. Equipped with a 1.3M-pixel (1280x1024) CMOS sensor delivering superior image details, it could be the best choice for monitoring extensive areas such as airports and banks. Embedded with VIVOTEK VVTK-1000 SoC, it provides high-quality video compression in MPEG-4 and MJPEG (dual codec). Moreover, it also enables to deliver dual streams with different resolutions and video quality upon different devices simultaneously such as PC (MPEG-4 or MJPEG), or 3G cell phone (MPEG-4 only) for real-time monitoring.

In order to prevent unexpected connection failure, the VIVOTEK IP7138/IP7139 builds in a compact flash card slot for local storage; thus, the snapshots and video clips generated by events or scheduled recording can temporarily be stored on the memory card for later retrieval. In addition, it also supports 3GPP mobile surveillance, a hot application in IP surveillance recently, which enables users to monitor via 3G cell phones or any RTSP (Real Time Streaming Protocol) compatible multimedia devices on the go.

More features are enhanced in the VIVOTEK IP7138/IP7139 to meet specific applications such as two-way audio and SIP User Agent (*), one D/I and one D/O interface, built-in 802.3af compliant PoE (IP7138) and 802.11b/g WLAN (IP7139), and appropriate lens selection with CS mount. Along with the free-bundled 16-ch recording software and its versatile functions, the VIVOTEK IP7138/IP7139 provides a total solution for high quality live viewing and reliable recording.

Features

➤ **Product News**

**VIVOTEK's Network Video Receiver
RX7101**

Features

- Supports Real-time MJPEG and MPEG-4 Video Decoding
- Supports GSM-AMR and MPEG-4 AAC Audio Decoding
- Quad or Sequential Display in Multi-channel Mode
- Connection Compatible with VIVOTEK's 7000-series Models
- D/O Follows the Status of D/O on IP Camera or Video Server
- RS-485 Keyboard Can Remotely Control PTZ/DOME Cameras
- Up to 1-channel D1 Real Time Decoding or 4-channel CIF Real Time Decoding

➤ **Firmware Updates**

-  PZ6114 network camera - V.0102c
-  PZ6124 network camera - V.0102c

➤ **VIVOTEK INC.**

- Mega-pixel CMOS Sensor
- Appropriate Lens Selection with CS mount
- Built-in CF Card Slot for Local Storage
- MPEG-4 and MJPEG Video Compression (Dual Codec)
- Supports Simultaneous Dual Streams (RTSP Streaming for MPEG-4 Mode with Resolution up to 800x600; Server Push for MJPEG Mode with Resolution up to 1280x1024)
- Supports 3GPP Mobile Surveillance
- Supports Two-way Audio (*)
- Built-in 802.3af compliant PoE (Power over Ethernet) (IP7138)

6F, No. 192, Lien-Chen Rd.
Chung-Ho,
Taipei County, Taiwan, R.O.C.

- Built-in 802.11b/g WLAN (IP7139)
- Supports One D/I and One D/O for Sensor and Alarmn
- Supports Privacy Masks

© Note:

The features marked with (*) will be available later through firmware upgrade.

Happy Chinese New Year to All VIVOTEK's Valued Customers!!

Since the Chinese New Year is near at hand, VIVOTEK would like to express our greatest appreciation to all of our customers strongly supporting us over the past and sincerely wish you all the best in this promising year! Our office will be closed during the Chinese New Year Holidays from Feb. 16th to Feb. 25th and we are sorry for causing your inconvenience during this period. Once again, Happy Chinese New Year to each of you!!

The Upcoming Trade Shows

As one of the leading providers of IP surveillance solutions, VIVOTEK is keen to participate in each important trade show in the coming months. Now we are well prepared for new products of 2007 Q1 and would like to extend our hearty welcome inviting you to visit our booth for the latest, cutting edge product lines!

Security Show 2007

.....

- Booth No.: SS127
- Place: Tokyo, Japan
- Date: March 6th~9th, 2007

ISC West 2007

.....

- Booth No.: 8127
- Place: Las Vegas, USA
- Date: March 28th~30th, 2007

SecuTech 2007

.....

- Booth No.: C807~C810
- Place: Taipei, Taiwan
- Date: April 16th~18th, 2007
