A Leading Provider of Multimedia Communication Solutions

## Company News

## Product News

### VIVOTEK Honorably Receives the Technology Fast 500 Asia Pacific 2006, Awarded by Deloitte.

VIVOTEK is so honorably to win the award of Technology Fast 500 Asia Pacific 2006 by Deloitte, and is ranked No.71 according to average 500% revenue growth rates over the past three years (2003-2005). Having transferred to public ownership, our team works even harder to deliver cutting-edge products and reliable customer-driven solutions to the marketplaces than before. Therefore, we are proud to say: "We have created so many miracles that we are really worthy of the honor!"

Our fast growth is attributed to our consistency in delivering innovative products meeting global markets' needs and technological trend. The market share of IP-based surveillance systems has gradually replaced that of CCTV analog systems as the leading security solution, which has proven our precise foresight and reinforced our confidences." said Owen Chen, the chairman of VIVOTEK, "and we are all profoundly convinced that it will definitely continue evolving!" We are set to confront any challenges and will firmly keep our foothold in this industry. With such a glory, we will relentlessly devote ourselves to working more diligently so as to achieve our goal-A Leading Provider of Multimedia Communication Solutions.

### The Upcoming Trade Shows

As one of the leading providers of IP surveillance solutions, VIVOTEK is keen to participate in each important trade show in the coming months. Now we are well prepared for new products of 2007 and would like to extend our hearty welcome inviting you to visit our booth for the latest, cutting edge product lines!

#### ISC West 2007

With over 1,000 exhibitors and 24,000 security professionals, ISC West is an important trade show where end-users of security, systems integrators, dealers, and installers can fulfill all their security needs.
