VIVOTEK Cameras Win the Symbol of Excellence Award 2007

VIVOTEK is delighted to announce that two of its outstanding network cameras, IP7131/7132 & IP7138/7139, have received the Symbol of Excellence Award 2007, conferred by CETRA (China External Trade Development Council).

The Taiwan Excellence Awards Selection, with 487 candidate products, is based on four different criteria: R&D and Innovation, Design and Innovation, Quality System, and Market Promotion. "We have received this honor for three years in a row, which have further proved that our innovative technology is always at the forefront of the network video surveillance market." said Owen Chen, the chairman of VIVOTEK, "we will definitely keep on delivering more groundbreaking products to the marketplaces and endeavor to make VIVOTEK a well-known brand around the world."

Keeping an Eye on Patients Suffering from Special Illness -- VIVOTEK Network Cameras Ease the Burden for Caregivers --

Founded in 1971, Kahrizak Charity Foundation (KCF) in Tehran, capital of Iran, is a private, non-governmental, non-profit, free-of-charge charitable organization for the physically handicapped suffering from special illnesses and elderly individuals with no financial resources. Many patients who suffer from MS (Multiple Sclerosis)- an autoimmune disease that

often results in loss of eyesight, nerve pains, or even disability - and amnesia need full-time care. However, due to its limited budget, the hospital is unable to arrange one caregiver for each individual; caregivers must take turns watching over patients.
