Features

view for maximum coverage. With the sophisticated 3-axis mechanical design, it offers a very flexible, easy hardware installation for either ceiling or wall mount. To prevent false alarms, it is also equipped with a PIR (Passive Infrared) sensor, which can detect motion causing temperature changes in the infrared range emitted by surrounding objects. Embedded with VIVOTEK's VVTK-1000 SoC, it simultaneously delivers dual streams with different resolutions up to 30fps in VGA resolution upon separate multimedia devices for real-time viewing. Additionally, by offering more advanced features such as 3GPP mobile surveillance, built-in 802.3af compliant PoE, two-way audio (*), FD7131 allows users to build up a cost-effective IP surveillance system for various indoor applications with ease.

AGI Security, on behalf of VIVOTEK, will participate in IP-in-Action LIVE Technology Roadshow

AGI Security, a premier partner and distributor of VIVOTEK, will take part in the "IP-in-Action Live Technology Roadshow" in Boston held by IP UserGroup. They will demonstrate an array of IP surveillance products, including IP cameras, video servers, NVR storage solutions, accessories, and CCTV LCD panels. They are now currently shipping NVR solutions up to 18 Terabytes of dedicated video storage for the exhibition.

The "IP-in-Action Live Technology Roadshow" is composed of a seminar and an exhibition for many key providers of surveillance to gather together. They arrange the seminar with many comprehensive presentations which allow you to share experiences with other companies. Please come to visit our exhibition booth to experience the cutting-edge IP surveillance solutions.

- ✧ Progressive-scan CCD Sensor with VGA Resolution
- ✧ Appropriate Lens Selection with CS Mount
- ✧ Removable IR-cut Filter for Day & Night Function
- ✧ Real-time MPEG-4 and MJPEG Compression (Dual Codec)
- ✧ Supports Simultaneous Dual Streams
- ✧ Built-in 802.3af Compliant Power over Ethernet (PoE) (IP7151)
- ✧ Built-in 802.11b/g WLAN (IP7152)
- ✧ Supports Two-way Audio by SIP Protocol (*)
- ✧ Digital I/O for External Sensor and Alarm

Note: The features marked with (*) will be available later through firmware upgrade.

Crocker Jeans Intl, a leading Israeli jeans company, expected to plan a massive, multi-million advertising campaign for its brand, one that would clearly differentiate the company in the jeans industry. Their advertisement agency suggested a bold trial – allow shoppers to display their new look in Crocker Jeans' apparel to their friends over the internet. With the decision to attempt such a campaign, the company looked for a solution that would make this creative idea possible...
